

BENSEL NAMED FOR \$12,000 JOB SIMMONS HELD

Dock Commissioner, a Practical Engineer, Appointed on Water Supply Board.

John A. Bensei to-day assumed his duties as a member of the Board of Water Supply, and it is expected will be chosen president. He had been Dock Commissioner since Mayor McClellan began his second term, and his name was one of three submitted to the Mayor yesterday afternoon by J. Edward Simmons, as president of the Chamber of Commerce, the Mayor making the appointment within two minutes after reading Mr. Simmons's letter. The selection of Mr. Bensei, because of his record in the Dock Department, means that a practical engineer of long experience is to be at the head of the biggest enterprise, measured by its cost—\$102,000,000—ever undertaken by this city, and that Mayor McClellan has taken steps to prevent an occurrence similar to the Ashokan Dam award. In requesting the Chamber of Commerce to name three candidates to succeed Mr. Simmons, he asked that engineers be chosen. Accordingly the Chamber named Mr. Bensei, Macdougall Hawkes, Dock Commissioner under Mayor Low, and Eben E. Olcott, of the engineering firm of Olcott & Corning, of No. 38 Wall street. Dock Commissioner Bensei has made one of the best records in the Mayor's administration. He is a graduate of the Stevens Institute of Technology, and about forty years old. Commissioner Bensei's home is the

Hotel Marie Antoinette, and he is a member of the Union Club, the University of the Engineers' Club. "It is an engineering job," said Commissioner Bensei today. "There is nothing I can say about my plans or intentions until I have looked over the work."
